

Danville School Principal Search Survey

The Danville School District is asking for your help in selecting the next principal of the Danville School. Our search consultant, Dr. Daniel French, has created an online survey to solicit input from students, staff, parents, and the community.

The survey below asks you to respond to several critical questions. The information generated from this survey will be used to develop a profile which indicates desired qualities and characteristics in our next principal. Dr. French will compile a report summarizing the survey results and share it with the search committee and the community. Please submit your responses prior to March 31st.
